## THE PROJECT

The sun exposure on this inland tennis court, located in Nerima, Tokyo, is relentless during the Summer months with temperatures reaching 40°C. The goal of this restoration was to change the existing artificial court to a hard court system to promote athlete development.

# SOLUTION

CoolTop was used in a beautiful, Mint Green and Ice Blue color combination. The final look is colorful and bright, making it easier to see the ball. Players have also noticed a considerable temperature reduction on the new surface, making tennis more enjoyable during the summer months.
