SPORTS SURFACES WA

BROOME TENNIS CLUB

BROOME, WESTERN AUSTRALIA

THE PROJECT

Broome Tennis Club is an exclusive development in Western Australia. With eight tennis courts degrading and in poor conditions, Broome Tennis Club was eager to repair and resurface the courts.

SOLUTION

Cracks in the asphalt and road base below were repaired and sealed to prevent the ingress of moisture and further damage. Plexicushion Prestige was then applied as the new surface coating. The new cushioned surface provides shock-absorbing properties that will respond to the body impact and reduces fatigue on the legs, knees, ankles and feet of the players.
